

Patrick Greenan

Founder & President, Construction Testing Services, Inc.

Patrick Greenan, PE, is the Founder and President of Construction Testing Services, Inc. Originally from Boston's close-knit Irish community, he earned his Bachelor of Science in Civil Engineering from Northeastern University before relocating to California in 1990, where he became a registered Professional Engineer.

In 1994, from a one-bedroom apartment in San Francisco, Mr. Greenan launched the first of four companies—an effort that combined entrepreneurial drive with technical expertise. Over his 32-year career, he has become a recognized authority in Quality Control/Assurance Manager with an emphasis in materials testing and special inspection, with experience spanning roles as a Field Technician, Laboratory Manager, Staff engineer, Operations Manager and Responsible Engineer. This breadth of hands-on knowledge has shaped his leadership and vision for the industry.

Today, Mr. Greenan is spearheading the development of elas., an AI-powered real-time business automation platform designed to streamline document and project management for the architecture, engineering, and construction sector. Together, the affiliated companies he has founded operate across the United States and Europe, employing more than 1,000 professionals in engineering, inspections, testing, and business automation.
