

HUSSAIN AGAH

Associate Vice Chancellor, Facilities Planning & Development, Riverside Community College District

Hussain Agah is an educational leadership professional with over 22 years of experience in facilities planning, construction program management, and real estate development. He has served as an Owner's Authorized Representative on several large-scale capital improvement programs, leading projects for educational institutions including Los Angeles Unified School District, San Bernardino Community College District, and Riverside Community College District, as well as federal initiatives with the U.S. Army Corps of Engineers.

Currently, Hussain serves as the Associate Vice Chancellor of Facilities Planning & Development at Riverside Community College District (RCCD). In this role, he leads the District's local construction bond program and oversees college facilities master planning, sustainability and climate action initiatives, advocacy for facilities improvement policies, scheduled maintenance, student housing, and district expansion through land acquisition and real estate development.

Hussain is actively involved in statewide and regional leadership. He is a member of the Association of Chief Business Officials (ACBO) Facilities Advisory Council and the California Community Colleges Chancellor's Office Energy Resources & Sustainability Program. He also serves as a Director-at-Large for the Construction Management Association of America (CMAA) Southern California Chapter and was recently appointed to the Board of Directors of the Community College Facility Coalition (CCFC).

A passionate advocate for collaborative leadership and professional development, Hussain is committed to fostering partnerships among public agencies and industry stakeholders, and to supporting the next generation of students, professionals, and emerging leaders.

He is a certified Project Management Professional (PMP), a Certified Construction Manager (CCM), and a LEED Accredited Professional (LEED AP). Hussain holds a Master of Science in Civil Engineering with a specialization in Construction Management from California State University, Long Beach.
