

ISSIAH CIRICUTI

Construction Management Student, CSU Long Beach

Issiah Ciricuti is a Construction Management student at Cal State University Long Beach, born and raised in Oxnard, California. He has interned with W.E. O'Neil Construction and Royal Electric Company, supporting both field and office operations on design-build and design-bid-build projects, including LA Harbor College, Santa Barbara Airport, and Hollywood Burbank Airport.

He has competed in the 2025 ASC Reno Competition as a superintendent, where he developed their site logistics, safety, and QAQC plans, and he be returning this year as an estimator to gain more experience.

His academic background in construction management is supported by earlier studies in economics and business administration, which helped him approach projects with a balanced and strategic mindset. He is passionate about learning every side of the industry, from boots-on-the-ground work to project planning, and he is always looking for ways to grow, collaborate, and contribute
