

Larry Markham

Founder and Owner
SAFE-Safety Associates for Employers, LLC

Larry is an accomplished business owner and passionate occupational health and safety professional. He has many years of experience with commercial and residential construction, general industry, government, health education, manufacturing, military, mining, retail, technology, and transportation for small to large-size organizations. His passion is influencing people to inspire positive attitudes, healthy behaviors, company culture, quality, and performance with exceptional compliance, leadership, management, staffing, and training. Larry provides innovative solutions to complex challenges working closely with diverse people at all levels through accountability and clear communication. Larry and wife Cathy started SAFE-Safety Associates For Employers after a good friend was killed in a workplace accident. Achievements include earning several safety excellence awards, reducing incidents and injuries, and boosting worker performance. His boots on the ground hands-on approach are what set him apart. Engaging with business owners and decision-makers, SAFE delivers results that enhance and promote the value of workplace health and safety.
