

Andrew Wahe

Educator
Val Verde Unified School District

Andrew K. Wahe is an educator, licensed California General Contractor, and skilled trades professional with over 25 years of construction experience and 12 years of Career Technical Education (CTE). He prepares future construction professionals by combining industry experience with hands-on, workforce-focused education. Currently, he teaches Construction Technology for Val Verde Unified School District, developing industry-aligned curriculum for skilled trades and construction careers. Previously, he helped establish career pathways in construction with the Riverside County Office of Education. Before teaching, Andrew ran his own construction business after earning his California Class B General Building Contractor's License in 2004, specializing in residential remodeling, renovations, and investment projects.

Andrew has a Master's from The New School of Architecture and Design, a Bachelor's from Columbia Southern University, a California CTE Teaching Credential, and MC3 certification in the Multi-Craft Core Curriculum (MC3). As an early MC3 and pre-apprenticeship instructor, he has helped students develop skills for building trades careers. He advocates for expanding Career Technical Education, strengthening industry partnerships, and developing skilled, safety-conscious professionals through hands-on learning, mentorship, and industry ties. His mission is to inspire and mentor future construction professionals, emphasizing craftsmanship, integrity, safety, leadership, and lifelong learning to close the skills gap.
