

Jessica Van Strander

Engineer/Estimator | Granite Construction

Jessica Van Strander has been an Engineer and Estimator with Granite Construction in the greater Sacramento Area for 2 years. With over 15 years of industry experience, Jessica brings a diverse background in business development, field operations, and estimating, with past roles at both mid-sized and large firms in railroad and heavy civil construction. Her breadth of experience equips her with a comprehensive understanding of career progression and industry dynamics throughout California and beyond.

Jessica's leadership style centers on uniting teams and building alignment so everyone is working toward the same goal.

Jessica highlights communication as a key leadership skill - showing how strong connections build trust, improve teamwork, and deliver better field outcomes.
