

Steven Carrillo

Deputy Airport Director of Planning and Development | John Wayne Airport

Steven Carrillo serves as the Deputy Airport Director of Planning and Development, overseeing the Airport's Planning, Environmental, Engineering, and Project Delivery teams. He manages John Wayne Airport's \$700 million Capital Improvement Program, which includes major initiatives such as critical taxiway reconstruction, power distribution and Central Utility Plant enhancements, Terminal accessibility improvements, vertical conveyance upgrades, and a baggage handling system replacement. Steve ensures that all capital projects comply with FAA, CEQA, NEPA, and TSA requirements and align with the Airport Layout Plan and long-term strategic goals.

He holds a master's degree in civil engineering from Stanford University and a bachelor's degree in civil engineering from the University of California, Irvine. Steve brings 20 years of engineering and management experience, including 8 years in prior roles at John Wayne Airport, including as Engineering Manager. His background also includes serving as Senior Engineering Manager at Orange County Public Works and as City Engineer-Manager of Engineering for the City of Irvine. Steve is a licensed Professional Engineer in the State of California.
