

Jesus Puebla

Capital Project Manager, Engineering-Construction
Port of San Diego

Jesus Puebla is a Capital Project Manager at the Port of San Diego, where he provides strategic leadership in the planning and delivery of complex maritime and public infrastructure projects. He works across port operations, engineering, industry partners, utilities, and regulatory agencies to advance terminal modernization, electrification, waterfront facilities, and other critical investments. His focus is aligning infrastructure, operational priorities, and long-term port strategy to deliver practical, resilient, and competitive outcomes.
