Kapil Verma, PE

Projects Administrator
City of Fresno Airports Department

Kapil Verma is a Deputy Director of the City of San Jose's Environmental Services Department (ESD) and leads the San Jose-Santa Clara Regional Wastewater Facility's (RWFs) Capital Improvement Program (CIP). Kapil has over 25 years of professional experience in the water and wastewater infrastructure space, having worked first in the private sector as an engineering consultant before making the move to the public sector over twelve (12) years ago. The CIP is a multi-billion, multi-decade long Program focused on rebuilding and modernizing the RWF - the CIP currently sits as the largest public works program in the history of the City of San Jose. Kapil is a registered professional engineer in the state of California and received his B.S. in Civil Engineering from San Diego State University.
