# Cristal De La Torre

Projects Administrator  
City of Fresno Airports Department

Cristal De La Torre is a Projects Administrator with the City of Fresno Airports Department. Since beginning her career in 2008, she has built 18 years of experience delivering complex infrastructure projects from concept through completion. Her work includes major airport initiatives such as terminal expansion, runway and taxiway construction, and long-range airport planning.

Her background also includes transportation and municipal infrastructure projects across California's Central Valley and the Los Angeles region, involving traffic systems, lighting, and multi-agency coordination. Cristal values the unique lessons each project brings. In her free time, she enjoys traveling, engaging in creative projects, and spending quality time with her family.
